DETAILED ACTION

Response to Amendment

The amendment filed on 11/28/2005 under 37 CFR 1.131 is sufficient to overcome the Matsumoto et al. (6084664) and Edgar (5465155) references.

Response to Arguments

Applicant's arguments, see pages 7 and 9, filed 11/28/2005, with respect to claims 14-17 (now claim 1) have been fully considered and are persuasive.

Allowable Subject Matter

Claims 1 and 8-11 allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 8-11 are neither anticipated or made obvious by the prior art of record. The prior art fails to disclose a web inspection device that simultaneously measures reflected and transmitted light, and digitally merges the images together to determine the location of defects; and further marks the web where a defect is located and culls the defect from the web.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
